

The Committee have considered the Coronavirus pandemic as a part of our usual risk management procedures, as the health and safety of our members and of the broader community is our top priority.

We understand that Coronavirus will potentially cause significant disruption in the Australian community in the medium term.

We understand that the risk to the general Australian population from COVID-19 is low, with most confirmed COVID-19 cases in Australia returned travellers.

All things considered, club activities will continue as normal, however this may well change in the future, and we will keep interested parties notified via social media and email.

We recommend that people that are unwell with a cough or fever or other respiratory symptoms, should not attend club events, meetings or gatherings. This is particularly so for people who have recently travelled from overseas.

We also understand that if you are concerned or feel vulnerable about this situation, you should avoid attending the range.

We recommend everyone practice good hygiene. Good hygiene measures include:

- Wash your hands often with soap and water
- Use a tissue and cover your mouth when you cough or sneeze
- Avoid close contact with others, such as touching

For the most up-to-date information about Coronavirus, visit the Department of Health
